

January

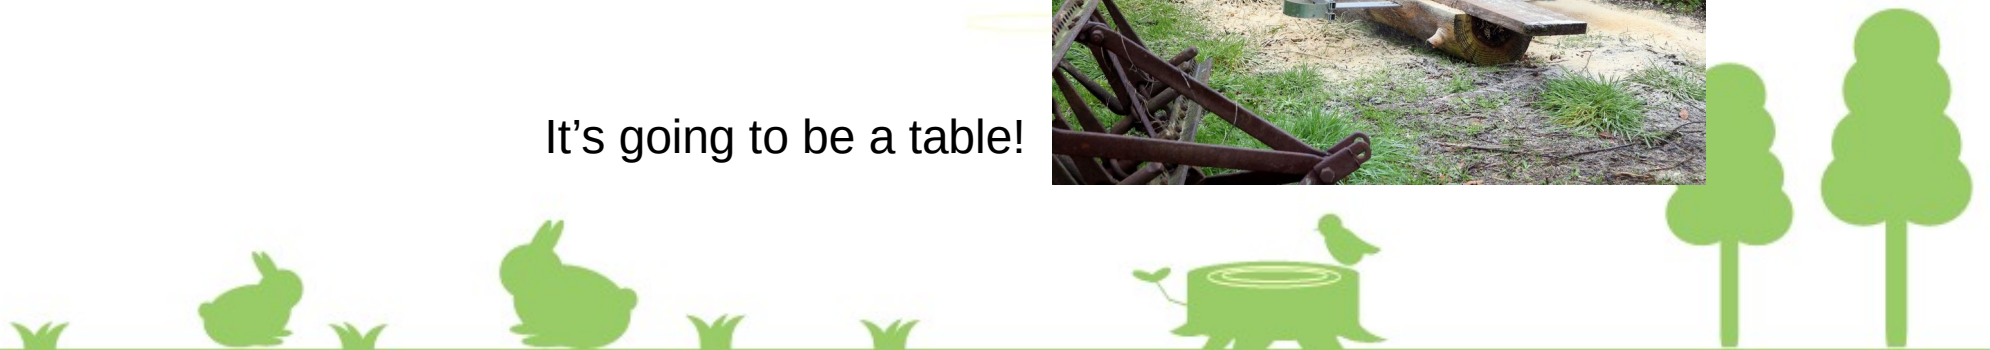

Early start, hopefully sober!

Starting the cucumber frame roof

It's going to be a table!

A frosty morning

Andy,
promoted to
'manure
management!'

Chipper in action, clearing
the north slip garden

Finishing dead hedges

Preparing veg. beds and harvesting

Cucumber frame discussions:
Make sure it's level!

Tractor gets a make-over

Cucumber frame base now fixed

Stubborn tree roots!

February

Clearing roots and rubble from the north slip

We have two icehouses – who knew?

Drainage problems!

New accessible raised beds, ready for paint.

Anthony's new device for lifting the (very) heavy cap stones.

Where's the biccies!
... Oh I see 'em

You know it makes sense.

Chips and sausage roll
Mmmm....

Chris, tackling
the wildlife pond
area.

March

More work on the wildlife pond

Alfie, checking that nobody's slacking

Barry in his 'workshop'

Mike and Bruce preparing the large veg beds

Last year's spuds from the clamp – they were OK.

Cucumber frame progressing

Anthony, on transport duty for the Park

This will eventually be the new office

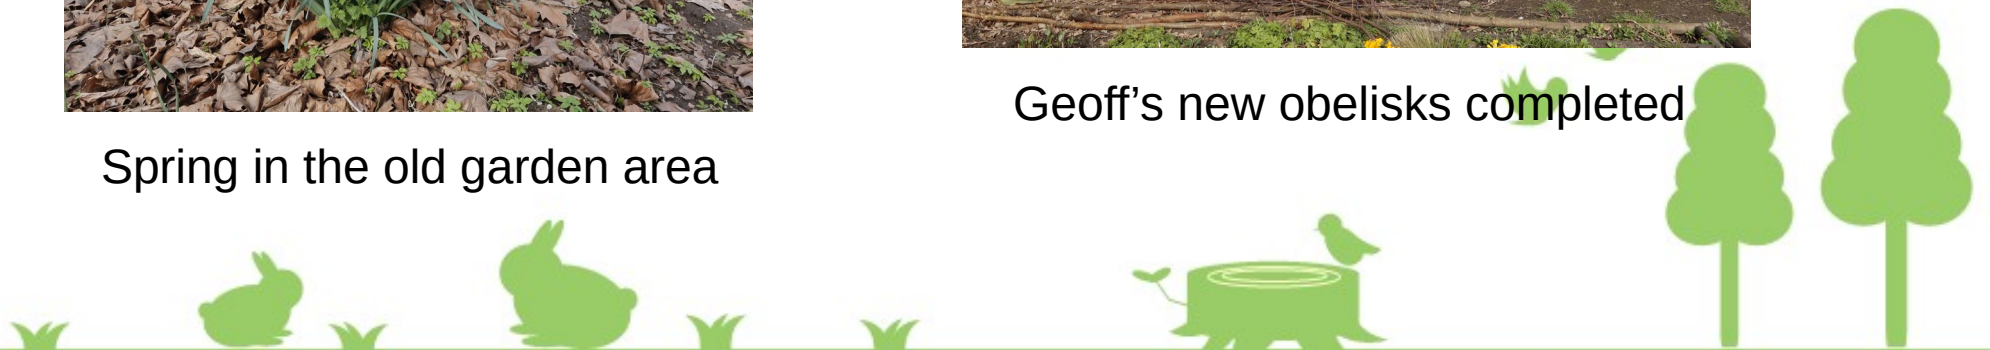

Alan and Andy repairing the wall

Spring in the old garden area

Geoff's new obelisks completed

I am now qualified!

Alan with his new cement mixer

Discovering the 100 year-old entrance to the walled garden complex

Preparing and clearing the big potato patch

Beginning work on the access ramp

Chris and the team planting up the native hedgerow

Happy birthday, Jacko

What a load of rubbish! (in the trailer)
